

HUGUARD Reusable Respirator Gas and Combined Filters

Easy Breathing Gas/Vapor Cartridges

- Ensures smoother airflow with reduced resistance
- Maximizes activated carbon utilization for extended protection time

Durable Materials

- Stability for diverse operating conditions
- Ultrasonic welding process makes the box body more solid and the activated carbon filling more compact

Swept-Back Design

- Swept-back design allows an enhanced field of view and comfort
- Rotary bayonet system for connection to a wide range of HUGUARD half and full masks
- Easy and quick assembling

High Quality Activated Carbon

- Coconut shell activated carbon, long protection time and low ash content
- Chemical impregnation treatment, superior adsorption of various gases

CE

8001 Organic Vapor Filter

CERTIFICATION EN 14387:2004+A1:2008 A1

SPECIFICATION 2 pcs/bag, 60 pcs/ctn

DETAIL Protection object: organic vapor, such as benzene and homologues, gasoline, acetone, carbon disulfide, ether, etc.

CE

8002 Acid Gas Filter

CERTIFICATION EN 14387:2021 E1

SPECIFICATION 2 pcs/bag, 60 pcs/ctn

DETAIL Protection object: sulfur dioxide and other acid gas

CE

8003 Organic Vapor/Acid Gas Filter

CERTIFICATION EN 14387:2004+A1:2008 A1E1

SPECIFICATION 2 pcs/bag, 60 pcs/ctn

DETAIL Protection object: organic gas or vapor, sulfur dioxide and other acid gas
