

HUGUARD Reusable Respirator Gas and Combined Filters

Easy Breathing Gas/Vapor Cartridges

- Ensures smoother airflow with reduced resistance
- Maximizes activated carbon utilization for extended protection time

Durable Materials

- Stability for diverse operating conditions
- Ultrasonic welding process makes the box body more solid and the activated carbon filling more compact

Swept-Back Design

- Swept-back design allows an enhanced field of view and comfort
- Rotary bayonet system for connection to a wide range of HUGUARD half and full masks
- Easy and quick assembling

High Quality Activated Carbon

- Coconut shell activated carbon, long protection time and low ash content
- Chemical impregnation treatment, superior adsorption of various gases

CE

8004 Ammonia Methylamine Gas Filter

CERTIFICATION EN 14387:2021 K1

SPECIFICATION 2 pcs/bag, 60 pcs/ctn

DETAIL Protection object: Ammonia and methylamine

8005 Formaldehyde/Organic Vapor Filter

CERTIFICATION GB 2890-2022 A1

SPECIFICATION 2 pcs/bag, 60 pcs/ctn

DETAIL Protection object: Formaldehyde and organic vapors

CE

8006 Multi Gas/Vapor Filter

CERTIFICATION EN 14387:2004+A1:2008 A1B1E1K1
AS/NZS 1716:2012 A1B1E1K1

SPECIFICATION 2 pcs/bag, 60 pcs/ctn

DETAIL Protection objects: benzene, homologues and other organic vapors, sulfur dioxide and other acidic gases, ammonia, methylamine, formaldehyde, hydrofluoric acid, hydrogen cyanide, etc.
